# Menu

Open Tools/vHierarchy menu to enable or disable features:

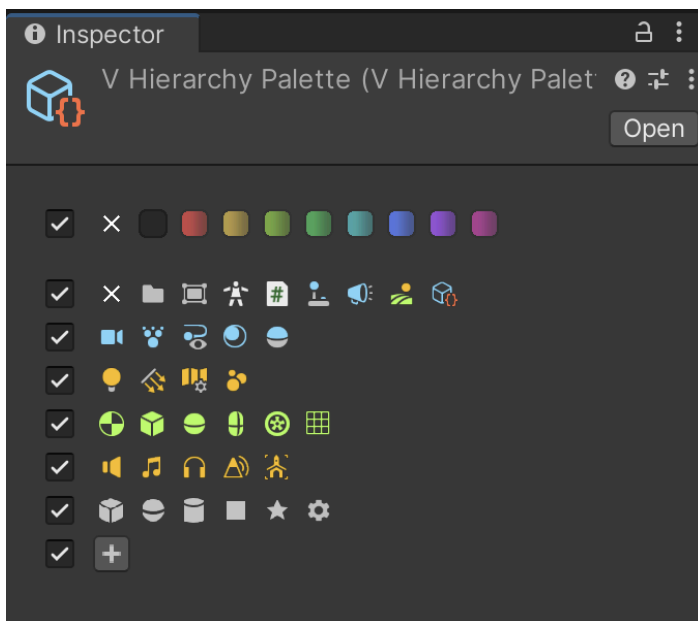

# Icons and colors

Alt-click an object to open palette, click a color or an icon to set it:

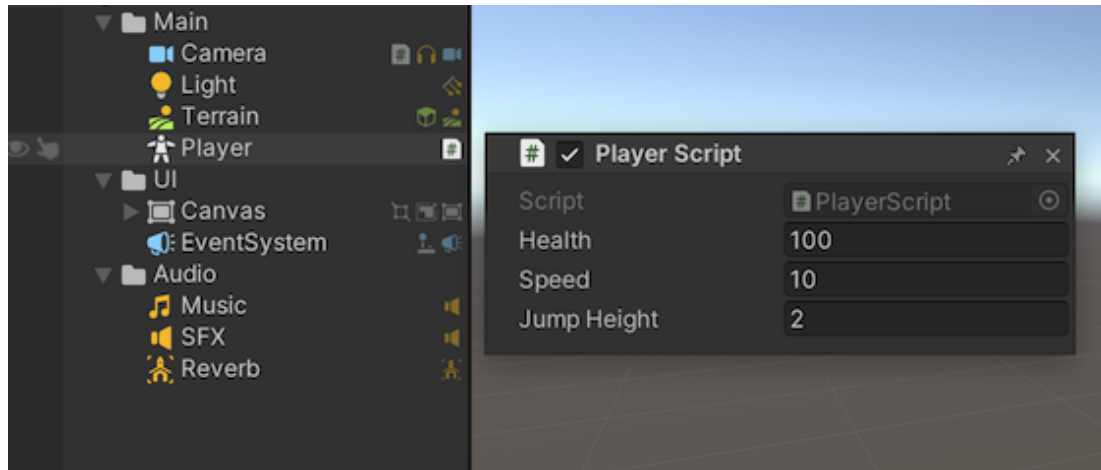

You can add icons and adjust colors by editing the palette object, which is located in the plugin folder:

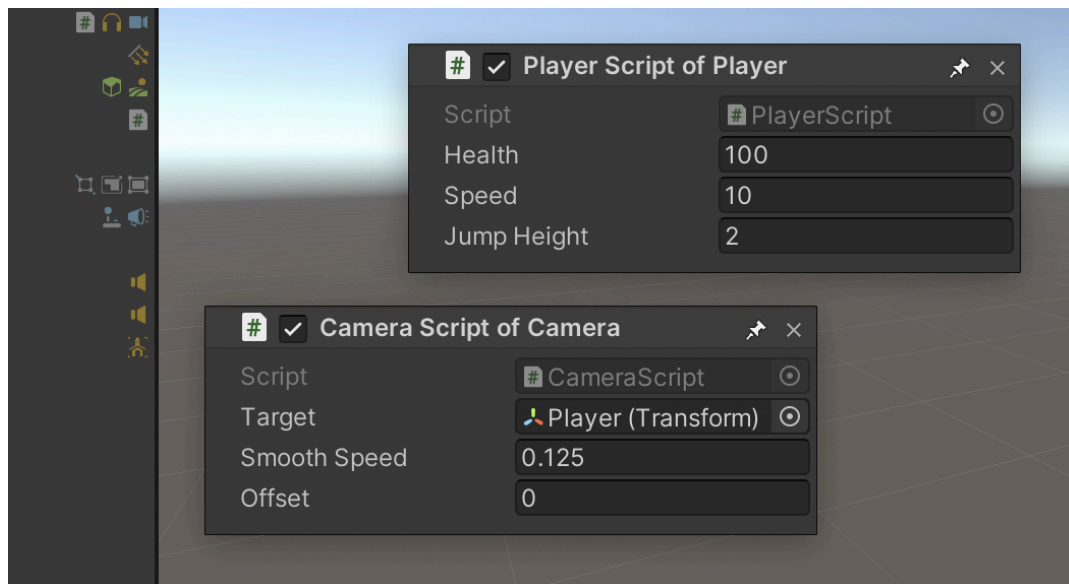

# Component minimap

Lists components on the right side of hierarchy

Alt-Click a component icon to open component mini editor:

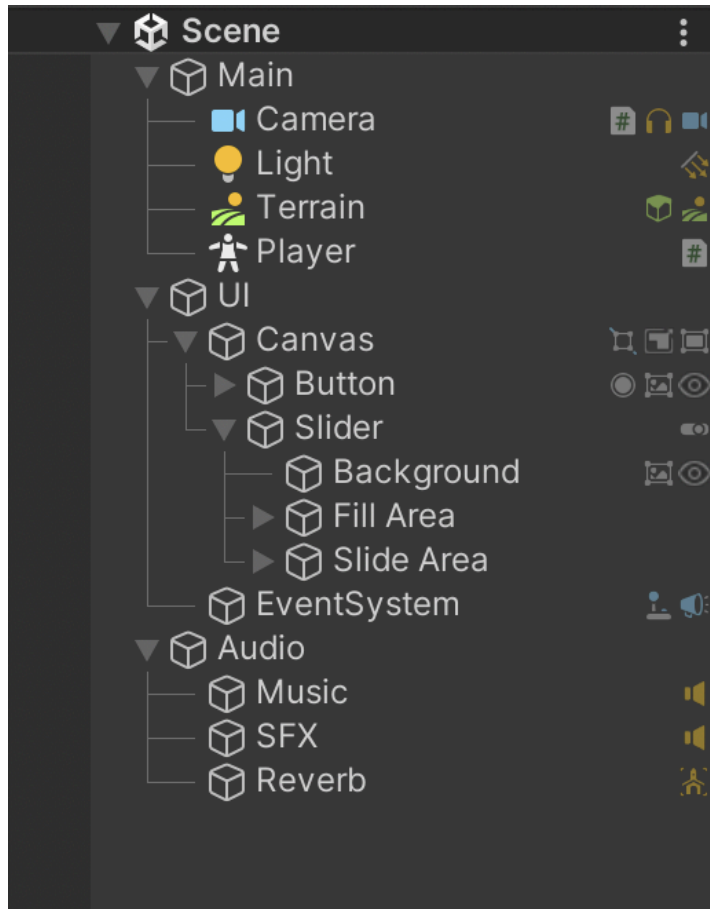

Click the pin button to make the editor stay open when you click outside of it.  
This way you can open multiple editors:

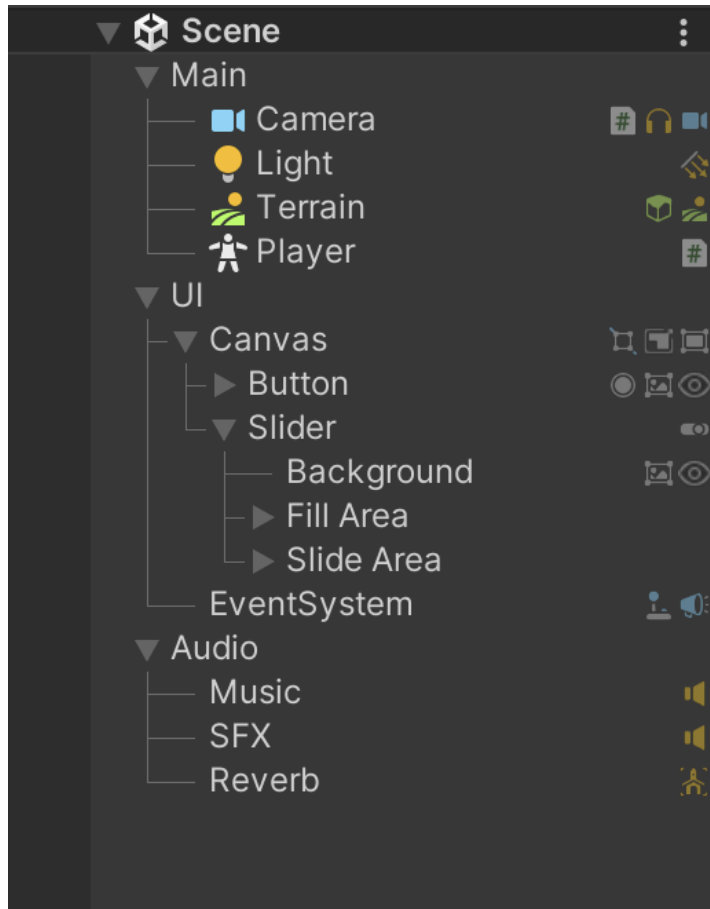

# Hierarchy lines

Draws lines from parents to children:

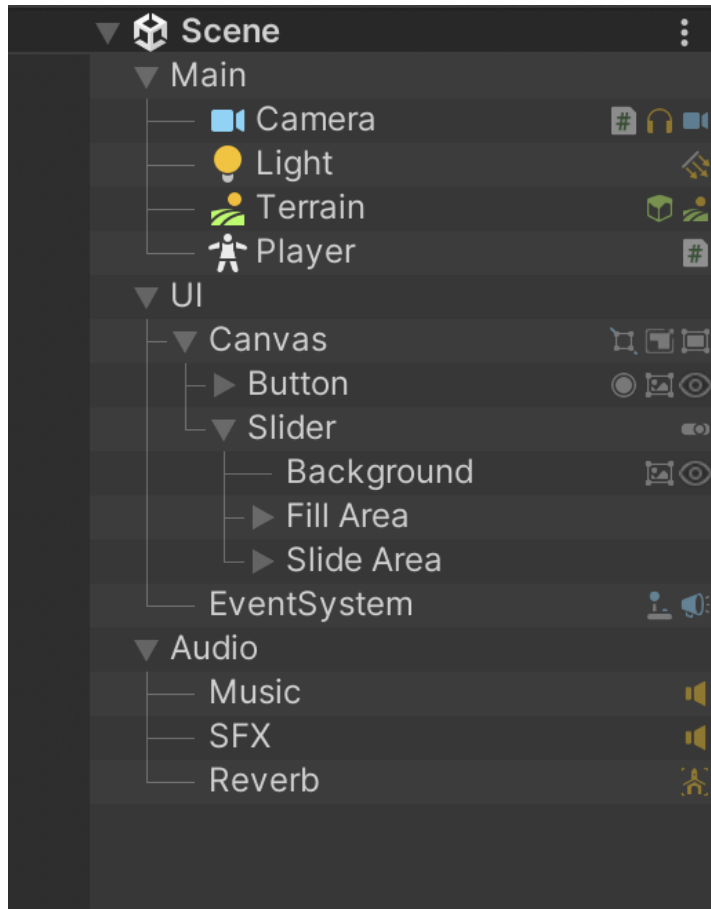

# Minimal mode

Only shows icons that you set via Alt-Click:

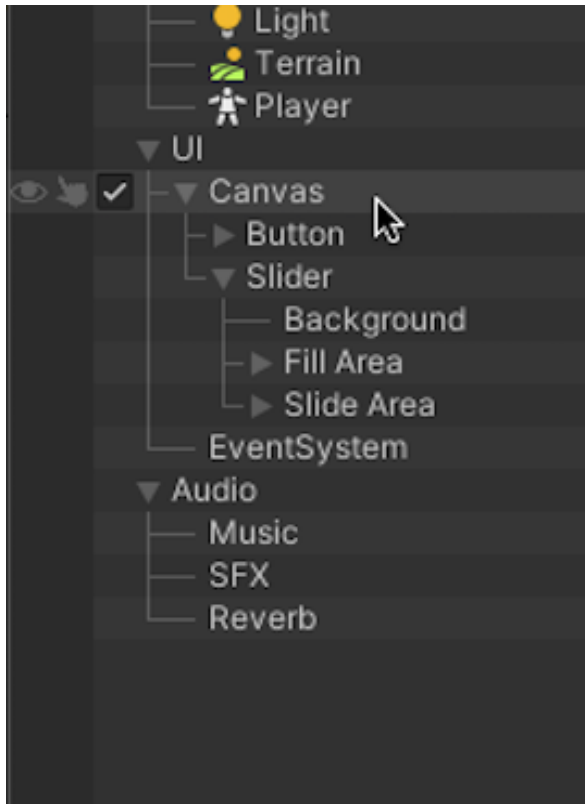

# Zebra striping

Applies alternating colors to rows:

# Activation toggle

Allows to enable or disable objects:

# Shortcuts

Shortcuts work on the object under mouse - no need to select it

Press A to enable or disable

Press F to focus

Press X to delete

Press E to expand or collapse

Press Shift-E to collapse everything else

Press Ctrl-Shift-E to collapse everything

If you forget a shortcut, you can look it up in the Tools/vHierarchy menu
